

PicoCTF Cryptography: Mod 26

We are given a simple string as the challenge and are told to use ROT13.

Description

Cryptography can be easy, do you know what ROT13 is?

`cvpbPGS{arkg_gvzr_V'yy_gel_2_ebhaqf_bs_ebg13_hyLicInt}`

The first step is to copy this string and paste it into a ROT13 decrypter.

```
picoCTF{next_time_I'll_try_2_rounds_of_rot13_u1YvpVag}
```

We are then given the complete flag and solve the challenge.

Hurray! You have solved this challenge correctly again.
