

PicoCTF Cryptography: 13

This is essentially an identical challenge to the Mod 26 challenge that we previously solved.

Let's copy the string and put it into a ROT13 decoder.

Description

Cryptography can be easy, do you know what ROT13 is?

`cvpbPGS{abg_gbb_onq_bs_n_ceboyrz}`

We put it into CyberChef and find the flag.

`picoCTF{not_too_bad_of_a_problem}`

Time to submit the solution and solve the challenge.

Hurray! You solved this challenge.
